Sounds good! We are working with Region 3 on a schedule for the comment letter (including appropriate briefings along the way). We can also check in with them on how the technical meeting went on Friday. Perhaps they are already raising the air issues.

Subject: Buffalo mtn

Next week let's talk about strategy for Buffalo Mtn and King Coal Hwy for coming months. We have our comments to prepare of course, but wondering about when/how we should raise other issues that were in our comments, particularly the air issues. Waiting until formal comments presents its own issues. I don't have a view on this – interested to kick it around. And I think Bob S wants to organize a meeting on this and related topics. Maybe we can talk Monday or Tuesday next week?

Thanks - C
